All stock is carefully fumigated in storage to eliminate any stray thrips. All bulbs are first class in every way.

Freight shipments can be made as far east as Chicago by heated freight at considerable savings over freight charges. There is no heated freight service east of Chicago and all shipments must travel from there by express during severe cold weather.

Jobbers or large growers desiring to purchase in large quantities are invited to submit us a list of their needs for a special quotation. We can supply several hundred thousand bulbs of several of the above listed varieties.

Our number six size listed above is graded 1/2 to 3/8 inch. This is a larger average size than many growers use. We can supply the smaller size, sometimes called number seven, at 20% less than number six listed above. These number sevens will run from 3/8 inch down.
